DIRECTOR OF CENTRAL INTELLIGENCE

Security Committee

SECOM-D-360
4 November 1982

MEMORANDUM FOR: Deputy Director of Central Intelligence

FROM:

[Redacted]

Chairman

25X1

SUBJECT: Capitol Hill Security

1. Action Requested: Your approval of an FBI proposal to assume primary responsibility for the upgrading of technical security countermeasures capability of the US Capitol Police.

2. Background: FBI liaison has advised that Mr. O'Malley has proposed the following plan in response to our initiative on this subject:

a. The FBI will take the lead in dealing with the US Capitol Police and Legislative Branch officials.

b. A group will be formed under the Security Committee, chaired by the FBI, to ensure that Community support is provided to the FBI's effort when needed. (I propose to establish a Technical Advisory Group under the SECOM Technical Surveillance Countermeasures Subcommittee for this purpose.)

c. The Interagency Training Center will train the Capitol Police countermeasures technicians.

d. Gene Dean, the FBI Member of SECOM, will serve as the focal point officer for this activity.

3. Mr. O'Malley's plan is essentially the same as the one we presented to the FBI on 6 October 1982. The only variation is the FBI's proposal for a SECOM group to ensure that they are supported by the Community.

4. Recommendation: I recommend that you approve the FBI's proposal and authorize [Redacted] and me to proceed with handing over the program to Gene Dean and FBI Legislative Liaison.
